

The Duncan Stingrays have committed to expanding the scope of their competitive swimming program to align with service providers, business development partners and aquatic sport enthusiasts.

This expansion begins with increased community presence – collaborating on community events, joining healthy campaigns and recruiting new members.

Supporters will see returns from an expanded media program involving special event, audio visual features, and of course web based programming.

As a majority of our programs take place at the Cowichan Aquatic Centre, the CAC is a major partner and is involved in our sponsorship recognition.

Please consider one of these program options and know the support is appreciated.
